

Individual Quiz – Random Module

Name: _____

Did you know that you ask python for help on functions? Here is the result of calling help on random.randint.

```
>>> help(random.randint)
Help on method randint in module random:

randint(a, b) method of random.Random instance
    Return random integer in range [a, b], including both end points.

>>>
```

Which one is the correct way to implement the cast of a normal 6-face die? The result is a random integer in {1,2,3,4,5,6}. Mark the correct answer.

def die:
 return random.randint(0, 6)

def die:
 return random.randint(0, 7)

def die:
 return random.randint(1, 6)

def die:
 return random.randint(1, 7)
